Alexandra O. Apkarian, MD
Shaza Al-Holou, MD
John D. Baker, MD

Orthoptist Position Available

Children's Eye Care is one of the largest pediatric ophthalmology practices which offers the combination of private practice, teaching and academics. We are looking for a dynamic orthoptist to join our team.

Children's Eye Care was founded in the early 1970s and continues to grow. The professional staff consists of eight pediatric ophthalmologists and six orthoptists over four locations. Three locations are private clinics located throughout metropolitan Detroit. The academic clinic is located in Detroit at Children's Hospital of Michigan. Children's Eye Care's academic clinic is privately owned and consists of training (26) residents from all four residency programs in Detroit and (50) students from two medical schools. We also have an AUPO certified pediatric ophthalmology fellowship as well as an AOC approved orthoptic program. Our practice is also involved in research projects and very involved in our national and regional communities.

The diversity of our practice, which includes both an urban hospital and suburban private practice locations, allows us the opportunity to practice the full scope of pediatric ophthalmology issues.

As a privately owned group pediatric ophthalmology practice, we have the privilege of working with a close group of peers that all have the same goals in medical care and business development as well as teaching and community involvement.

Enjoy the dynamic Detroit community – a city that's seeing an unprecedented revitalization and has a lot to offer. From start-ups in TechTown and grassroots community outreach to an urban agriculture movement and an incredibly supportive artist community, it's an exhilarating time to experience Detroit. It's not too big and not too small – and the greater metropolitan Detroit area has something for everyone.

In Detroit, fun – however you define it – is just a short drive away.

- ❖ Tony suburban enclaves with excellent school districts, shops, restaurants and theaters.
- ❖ Bustling city life with live music, events, world-class museums, professional sports teams and great grub.
- ❖ Pristine lands, rivers and lakes – for hiking, skiing, kayaking and other outside recreation.

Children's Eye Care offers competitive compensation and benefits, including health and dental insurance, generous levels of time off, 401(k) retirement plan and continuing education allowance for attendance to national and regional meetings and involvement in AAPOS and AACO.

EDUCATION/TRAINING REQUIREMENTS: Must be currently board certified or obtaining certification by the American Orthoptic Council within six months of hire.

Inquiries can be sent, with a copy of your current CV, to frtiz@cecmich.com.
